

ANEXO

MAPAS DAS ÁREAS DE PASTAGENS DEGRADADAS POR ESTADO

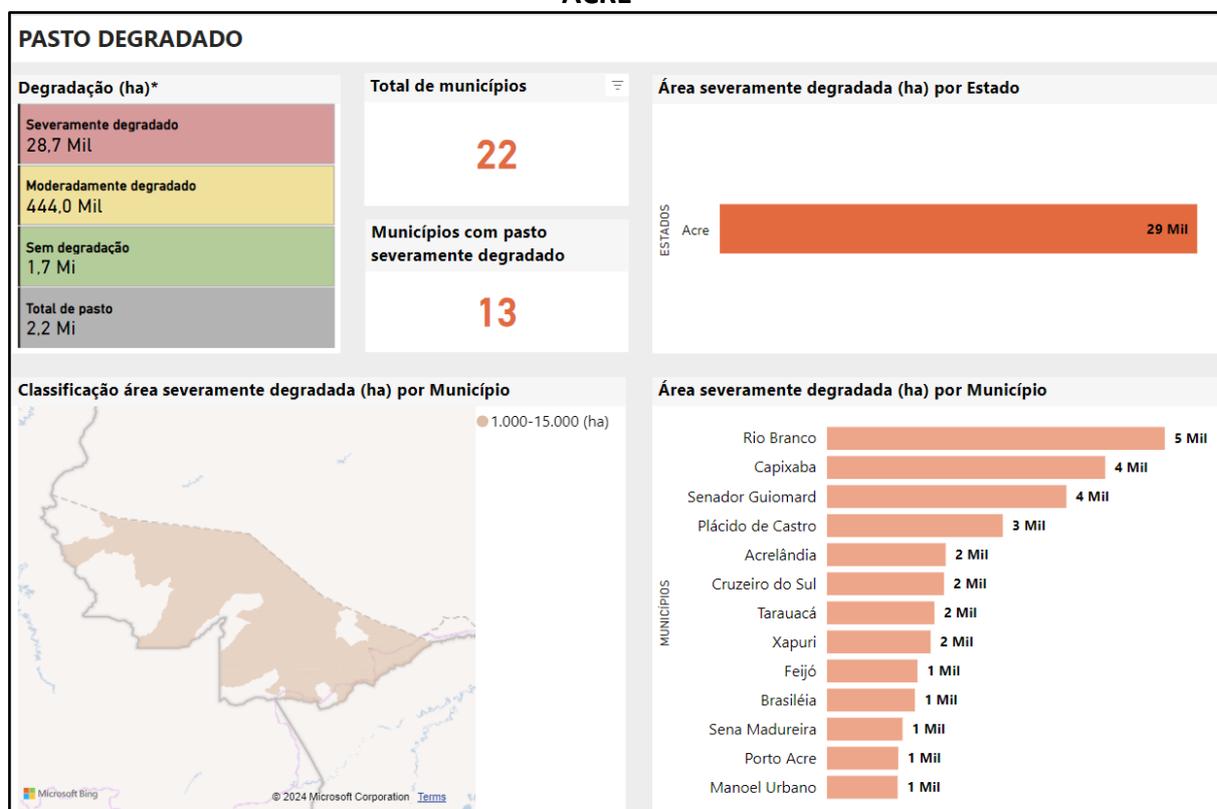

REDE FLORESTA + INICIATIVA CONEXÃO FLORESTAL

Foram desenvolvidos pelo Departamento de Reflorestamento e Recuperação de Áreas Degradadas (DEFLO) da Secretaria de Inovação, Desenvolvimento Sustentável, Irrigação e Cooperativismo (SDI) do Ministério da Agricultura e Pecuária (Mapa), mapas com as áreas de pastagens degradadas, dividindo-se nos níveis sem degradação, moderadamente e severamente degradado.

Para o Edital de Chamamento Público foi considerado o nível de maior degradação (severamente), sendo expostas neste Edital como áreas onde os projetos poderão ser executados.

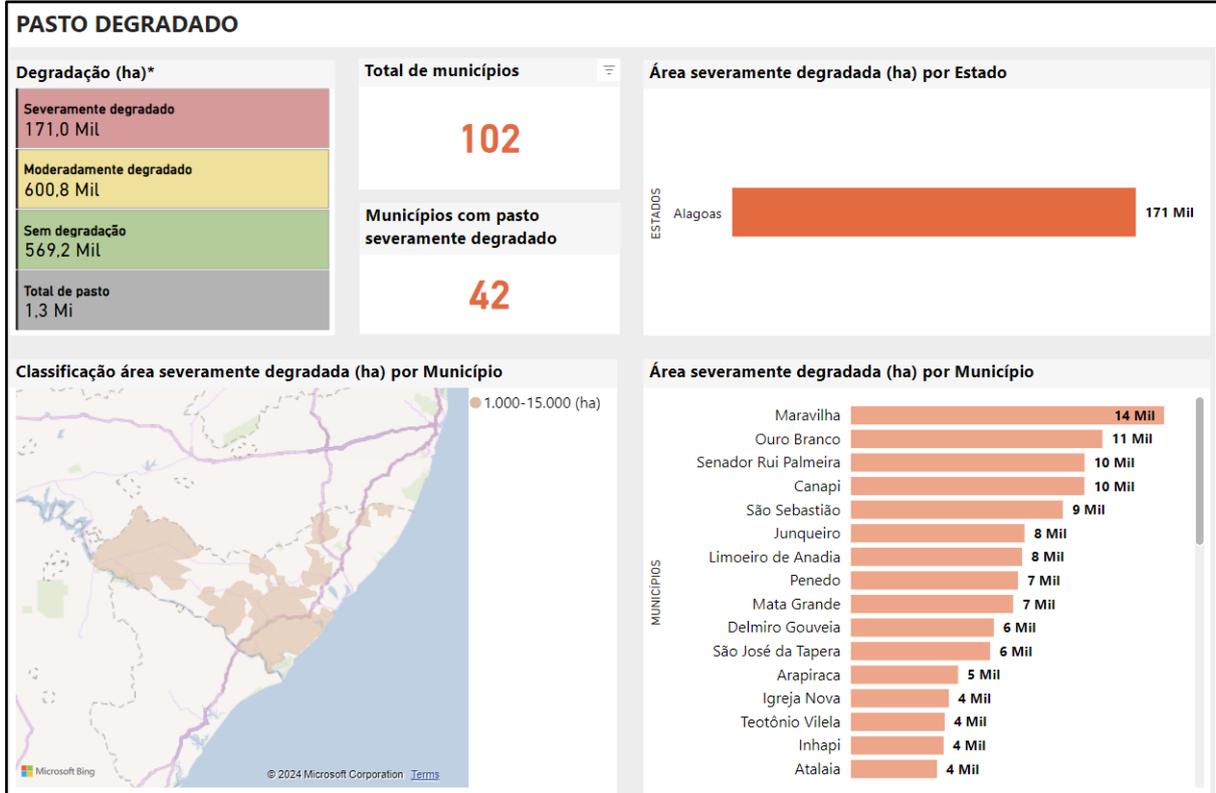

As imagens estão divididas por estado, sendo possível identificar os municípios com os maiores quantitativos em hectares (ha) de pastagens severamente degradadas.
