

Um perfil de risco setorial contém uma descrição dos riscos que podem afetar um grupo de produtos, serviços, organizações ou atividades de aviação relacionada

PART 2—SECTOR RISK PROFILE **Short form version of the sector's risk register**

Risk #	Risk	Risk Owner - primary	Current Rating	Treatment	Treatment Owner	Residual Risk Rating	Risk Review date
1	Failure to adequately manage movement area	» aerodrome operator	high	induction and continuous education ( on safe operations airside)	aerodrome operator/ industry associations/ CASA	low	2017
				implement the aerodrome 'conditions of use' agreement ( include compliance as a condition of use) documented agreements between third party and aerodrome operator ( on safe conduct airside)	aerodrome operator		
2	Ineffective communication of safety information	» aircraft operator; » aerodrome operator	high	national training program (on communication of safety information and safe aerodrome operations)	industry associations/ CASA	medium	2017
				regulation commensurate to type of operation (specific to uncontrolled aerodromes)	aerodrome operator/ CASA/ aircraft operator		
3	Unsafe operations by pilots	» aircraft operator	high	safety education and communication (on safe operations on and in the vicinity of aerodromes)	aerodrome operator/ CASA/ aircraft operator/ industry associations	medium	2017
4	Failure of infrastructure	» aerodrome operator	medium	industry associations/ DIRD to discuss (infrastructure) opportunities to ensure longevity (non-certified aerodromes)	aerodrome operator/ industry associations/ DIRD	medium	2019
				MOU's between aircraft operator and aerodrome operator (on correct use of aerodrome infrastructure)	aerodrome operator/ aircraft operator		
5	Accuracy of published information	» aerodrome operator	medium	induction and continual training (on information management)	aerodrome operator/ industry associations/ CASA	low	2019
				PIR CASR Part 175	CASA		
6	Adequate management of personnel airside	» aerodrome operator	medium	induction and continual training/mentoring (on airside personnel management)	aerodrome operator/ industry associations/ CASA	low	2019
				SMS-effective implementation and management (incident management/investigation/analysis)	aerodrome operator/ CASA		
				DAMP (where not held)	aerodrome operator/ CASA		
7	Protection of navaid integrity	» aerodrome operator; » ANSP	medium	induction and continual training ( on critical and sensitive areas on and in the vicinity of aerodromes)	aerodrome operator/ ANSP	low	2019
				documented agreements (between owner, provider and operator)	aerodrome operator/ ANSP		
8	Protection of airspace	» aerodrome operator; » DIRD/ land use planning authority and defence; » state /territory government	high	improved monitoring of off aerodrome developments	aerodrome operator	medium	2017
				regulation review	CASA/ ANSP/ DIRD/ Land Use Planning Authority		
				NASF-ongoing implementation of NASF with planning authorities	aerodrome operator/ industry associations		
9	Wildlife management	» aircraft operator; » aerodrome operator	high	stakeholder communication and education (of crane companies/ developers)	aerodrome operator/ industry associations	medium	2017
				NASF-ongoing implementation of NASF with planning authorities	aerodrome operator/ industry associations		
				induction and continuous education (on wildlife management)	aerodrome operator/ CASA/ industry associations		
				effective use of wildlife management technology	aerodrome operator		
10	Emergency response management	» aircraft operator; » aerodrome operator	high	regulation review	CASA	medium	2017
				effective wildlife risk management and continuous improvement/ monitoring	aerodrome operator		
				induction and continuous education (on effective emergency response management and accountability)	aerodrome operator/ industry associations/ CASA		
				emergency exercises commensurate to the aircraft/aerodrome operations	aerodrome operator/ CASA		
				emergency response stakeholder engagement and management	aerodrome operator		
emergency response resource management	aerodrome operator						

- Empresas certificadas segundo o RBAC 135 que operam de forma regular
- Identificada a necessidade de criação de fórum específico para o compartilhamento de informações de segurança operacional relacionada aos riscos compartilhados pelos operadores de setor
