

CAPES / University of Dundee  
Doutorado Pleno em Dundee

**RESULTADOS**  
Edital DRI/CGCI n. 48/2011

| Nº       | CANDIDATO                         | PROJETO  | GRANDE ÁREA             | SUB-ÁREA       |
|----------|-----------------------------------|--|-------------------------|----------------|
| <b>1</b> | ADRIANA AMORIM TORRES             | Title: Signalling to chromatin: regulation and role of polycomb repressor complex 2 component Jarid2 during neural differentiation | CIÊNCIAS BIOLÓGICAS I   | GENÉTICA       |
| <b>2</b> | JULIANA ALCOFORADO DINIZ          | Title: Investigating the anti-bacterial Type VI secretion system of an opportunistic bacterial pathogen                            | CIÊNCIAS BIOLÓGICAS I   | BIOLOGIA GERAL |
| <b>3</b> | MARCOS PAULO DE SOUZA DAMASIO     | Title :Proteomic characterisation of CD4 T cell populations  | CIÊNCIAS BIOLÓGICAS III | IMUNOLOGIA     |
| <b>4</b> | MARILIA DE ASSIS ALCOFORADO COSTA | Title: Protein secretion in the opportunistic bacterial pathogen <i>Serratia marcescens</i>  | CIÊNCIAS BIOLÓGICAS III | MICROBIOLOGIA  |
| <b>5</b> | THIAGO BRITTO BORGES              | Computational analysis and prediction of sites of protein post-translational modification by Phosphorylation and O-GlcNAcylation   | CIÊNCIAS BIOLÓGICAS II  | BIOFÍSICA      |
