And other financial instruments under the terms of Law # 12,431 dated June 24, 2011 - ("Law 12,431")

Real Estate Receivables Certificates - CRI's and Investment Funds

February 2018

51 th Edition

**Seprac**

Secretariat of Productivity and Competition Advocacy

Objective: Law 12,431/11

Present the number of projects authorized to raise funds in the capital markets, as well as the number and volume of debentures issued (articles 1 and 2 of Law 12,431 of 2011).

In particular, the market for incentive debentures for infrastructure is analyzed, in accordance with current legislation.

**Brazilian  
Infrastructure Bonds  
(main features)**

- Minimum duration of 4 years at issuance (6 years in the case of FIDC);
- Fixed rate or inflation-linked;
- There should be no repurchase by issuer during the first 2 years after the issuance date.
- No resale commitment undertaken by the buyer.
- Periodic interest payments (if applicable) of no less than 180 days.
- The instrument must be registered in a regulated securities market authorized by the Central Bank of Brazil or the Brazilian Securities Commission.
- Simplified procedure showing issuer's commitment to allocate raised funds in future payments or reimbursements of expenses, costs or liabilities related to investment projects;
- Dollar-denominated instruments are not eligible for the tax breaks.
- Public Issuance (Securities Commission Instruction 400) or Public Issuance with Restricted Efforts (Securities Commission Instruction 476).
- The National Monetary Council (CMN) Resolution 4,476 of April 11, 2016 authorizes the anticipated settlement of debentures at the issuer sole discretion, since it cumulatively meets the following requirements:
  - After at least four years from the debentures issuance date; and
  - If there is an express provision in the debentures indenture.
  - This resolution only applies to bonds issued between April 12, 2016 and December 31, 2017.
- CVM Ruling 400 - Public Offer. CVM Ruling 476 - limited public offering in which up to 50 qualified investors can participate.
- CAPEX Bonds (also referred to as Law # 12,431/2011 article 1 debenture) - Local currency IOF and tax-exempt bond for non-residents. The funds raised will be used for investments.
- Infrastructure Bond (also referred to as Law # 12,431 article 2 debenture) - tax-exempt bond for resident natural persons. A ten-percentage point reduction for local companies. Funds raised must be used in infrastructure investments or in research, development and innovation-intensive economic production.
- Decree 8.874 / 2016, which regulates the tax benefit of DI's, currently covers seven sectors: (i) logistics and Transport; (ii) Urban Mobility; (iii) Energy; (iv) Telecoms; (v) Radiofusion; (vi) Water and Sewerage (vii) Irrigation (Article 2).

Article 2 of Law No. 12,431/2011, regulated by Decree No. 8,874/2016, provides tax benefits for infrastructure projects through specific financial instruments making it a long-term funding mechanism via capital markets vis a vis traditional funding sources for infrastructure projects in strategic sectors.

In February 2018, it was offered in the market with restricted distribution efforts 01 (one) debenture of infrastructure, linked to the transportation sector (highways). The total volume of the supply distributed in the period was R\$ 1 billion. Between 2012 and February 2018, the total volume disbursed in infrastructure debentures, with ample and restrictive efforts was R\$ 28.8 billion.

Regarding total Issuances distributed Through Public Offers (Brazilian Securities and Exchange Commission - CVM No. 400/2003) and Restricted Offers (Brazilian Securities and Exchange Commission - CVM No. 476/2009), the individual investors participation accounted for R\$ 12.4 billion of the total amount until February 2018, corresponding to 43% of all incentive debentures issued since 2012.

The volume of tax-benefited debentures traded in the secondary markets exceeded the volume of non-tax benefited debentures. In December, the traded volume for tax-benefited debentures was 4.9% against 0.9% for non-tax benefited debentures.

Regarding Anbima Debentures Index (Índice de Debentures Anbima - IDA), over the past 12 months the IDA-DI's value rose 10.3% , against an increase of 8.1% in the IDA-IPCA (National Consumer Price Index (IPCA)-CPI) Infrastructure and 12.6% in the IDA-IPCA Exclusive Infrastructure. Looking at risk measures, over the past 12 months the IDA-IPCA Infrastructure outpaced the other indexes due to the longer Duration of the portfolio, with a risk rate of approximately 4.9%, compared to 0.2% and 4% for IDA-DI (Interbank Deposits - DI) and IDA-IPCA Exclusive Infrastructure, respectively.

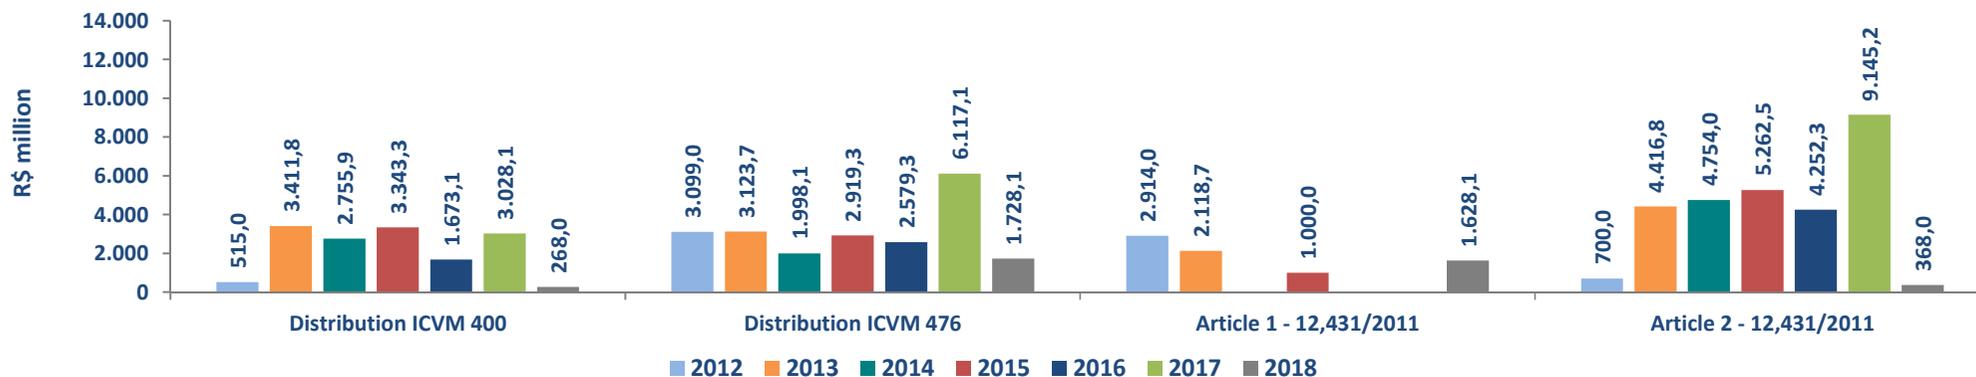

Regarding Infrastructure Funds, the percentage investment in Debentures through February 2018 in Fixed Income Funds (Fundos de Renda Fixa - FIRF), was 83%, while investments in credit rights in Investment Fund Quota Funds (Fundos em Cotas de Fundos - FIC) and Direct Credit Funds (Fundos em Direitos Creditórios - FIDC) reached 100% and 89% respectively, of Net Equity (NE).

Law No. 12,431/11 prescribes a minimum investment of 85% of Net Equity in infrastructure projects (debentures, quota funds, and direct credits), although in the first two years from the first pay-in, the minimum permitted percentage of infrastructure assets relative to Net Equity is 67%.

**Note:**

(1) Infrastructure Bonds (also referred to as Law # 12,431 article 2 debênture) - Tax-exempt bond for resident natural persons. A ten-percentage point 15% company income tax rate (ten percentage-point reduction) for local companies. Funds raised must be used in infrastructure investments or in research, development and innovation-intensive economic production.

(2) In this presentation we consider duration (Macaulay duration) as a measure of the sensitivity of the price (value of principal) of a infrastructure Bond expressed as a number of years. This indicator involving present value, yield, coupon and final maturity.

(3) Consumer Price Index - CPI (IPCA)

Note:

(1) Infrastructure Bonds (also referred to as Law 12,431 article 2 debênture) - Tax-exempt bond for resident natural persons. A ten-percentage point 15% company income tax rate (ten percentage-point reduction) for local companies. Funds raised must be used in infrastructure investments or in research, development and innovation-intensive economic production.

(2) In this presentation we consider duration (Macaulay duration) as a measure of the sensitivity of the price (value of principal) of a infrastructure Bond expressed as a number of years. This indicator involving present value, yield, coupon and final maturity.

(3) Consumer Prince Index - CPI (IPCA)

 Elaborated by COGTS/Seprac/MF

**Note :**  
 The difference between the amount of debentures issued and the number of Administrative Rules issued and Projects related to the debentures issued, is due to having more than one ordinance and project linked to a single debenture - example: Ventos de São Tomé Holding S / A (TOME12 ). We had 01 debenture issued for 07 (seven) Administrative Rules, therefore, 07 (seven) authorized projects.

Infrastructure Incentive Debentures Art. 2º Law nº 12.431 / 2011  
Participation of Debentures in the Financial Needs of Projects
