PRESENTATION

The Social Security Statistical Bulletin – BEPS is a monthly publication of the Social Security Secretary of the Ministry of Social Security. It is composed by 27 tables with data on benefits, revenue, the INSS cash flow and a set of economic and demographic indicators. Hence it covers the General Regime and social assistance benefits operated by the National Institute of Social Insurance (INSS). This bulletin neither contains information on current public servant funds (Regimes Próprios de Previdência Social) nor on the supplementary pension system (Previdência Complementar).

Table 1 is meant to bring basic information in a nutshell, with key data on benefits, revenue, cash flow, population and coverage. The following tables 2 to 8 unfold information on benefit concession: according to urban/rural sectors (table 2); quantity and value by species of benefits (table 3); quantity and value by value ranges (tables 4 and 5); geographical dispersion according to federal states (tables 6 and 7); and by species of benefits (table 8).

Table 9 shows information on new emissions, benefits which have been paid for the first time in the month of reference and still are not part of the permanent benefit roster.

Data 10 to 16 bring data on benefit emission, i.e. credits sent to be paid and generated from the active roster. The table sequence follows the structure used for benefit concession (tables 2 to 8).

Information on tables 17 and 18 refers to benefit cessation and suspension and is usually presented with a delay of one month. The benefits mentioned in those tables were suspended or ceased from the day the payment spreadsheet of the month of reference was generated until the elaboration of the following spreadsheet. Benefit requirements according to federal states are shown on table 19, classified as required, denied and under analysis. Table 20 brings the monthly evolution of benefit requirements, concessions and denials. The quantity of benefits under analysis, unfolded according to time since requirement and on whom depends the next step of the concession/denial process is the content of table 21.

Revenue of Social Security stemming from all sources collected by means of the Guia da Previdência Social (GPS) are shown on tables 22 to 25: on table 22 one sees the monthly evolution of social security revenue; table 23 brings detailed information on the sources of revenue; table 24 shows revenue from companies by economic sector and table 25 is by federal states.

The last two tables show the INSS cash flow (table 26) and other basic data on social security and the economy (table 27). The definitions used are presented after the last table.

For a long time the Brazilian Social Security has been owing information accessible in foreign languages. We hope the Statistical Bulletin helps to fill that gap. Please do not hesitate to contact us if you have any doubts or suggestions on the information presented.

BENEFITS

Benefits consist of monetary payments by Social Security to insured persons or their dependents. They aim at covering the events of sickness, labour accidents, invalidity, death or age, as well as length of contribution and work under hazardous and special health menacing conditions; protection to maternity; family benefit (for each child) and imprisonment benefit; and assistential benefits paid to the aged or disabled persons.

Continued benefits are characterized as continuous monthly payments, which endure until a certain event (e.g. death) cause their interruption. Benefits are adjusted each year to inflation according to an index stipulated by law (currently the INPC – National Consumer Price Index), always the same month than the minimum wage adjustment occurs.

The cycle of a benefit in the social security system comprehends: a) Concession, the flow of new benefits into the system; b) Maintenance, the administration of active and suspended benefits which are part of the roster; c) Cessation, corresponding to the benefits which do not generate credits any longer and are excluded from the active roster; and, d) Emission, which refers to the generation of a payment credit corresponding to an active benefit. A benefit is considered as suspended when it is not generating payment credits; however, it may be reactivated at any moment.

Benefits can be classified as: a) **GENERAL REGIME BENEFITS** are ruled by the General Social Security Regime (Regime Geral de Previdência Social – RGPS); they depend on the contribution of the insured (be they mandatory or voluntary contributors) and encompass general benefits and labour accident benefits. Their monthly value is calculated with reference to the wage on which incided the contribution and they are adjusted to inflation according to an index given by legislation. **General Benefits** usually depend on the fulfillment of a minimum contribution period before the insured can qualify to the concession. They include retirement benefits, survivor pensions, temporary benefits, family benefits and maternity benefits. **Labour Accident Benefits** are due to the insured which suffered an accident, or to his/her dependent, if the accident occurs when the insured is working serving a company. Professional or occupational diseases are also listed under labour accident figures, as well as the accident suffered during the displacement of the insured between his/her residence and the work place, provoking lesion or functional impact which cause death or reduce the capability to work; and, b) **SOCIAL ASSISTANCE BENEFITS** are ruled by the Social Assistance Law (Lei Orgânica da Assistência Social – LOAS), granting a monthly minimum wage benefit to those aged 65 or more and to disabled people. In both cases the family income must be below the threshold of $\frac{1}{4}$ of the minimum wage per member. These benefit do not depend on a previous contribution record.

CONCEDED BENEFITS:

Correspond to the benefit requirements presented by insured or their dependents to Social Security, which are analyzed, approved and authorized for payment because they fulfilled all criteria necessary for the obtention of the specific benefit. Information displayed refer to the Date of Benefit Analysis (Data de Despacho do Benefício – DDB). Quantity figures neither include alimonies nor splitting of a single survivor pension among different dependents because they correspond to the fraction of a same benefit despite of the existence of a Benefit Number (Número de Benefício – NB) of its own for each fraction. Value data correspond to the converted Initial Monthly Payment (Renda Mensal Inicial – RMI). Conversion is done from the Date of Benefit Start (Data de Início do Benefício – DIB) to the Date of Benefit Analysis (Data de Despacho do Benefício – DDB). Displayed value information does not include positive complements, discounts or delayed benefit payments.

VALUE OF CREDIT EMISSION AT CONCESSION:

Corresponds to the credits emitted for the first payment of conceded benefits. From the second payment on credit emissions are displayed in the tables referring to Benefit Emission. Unlike information displayed in other concession tables, values refer to net values, which means the difference between the gross value (value of the benefit plus complements, etc.) and the value of discounts (income tax, alimonies, etc.), including, if given, the value of delayed payments. The reference month corresponds to the payment date and not to the Date of Benefit Authorization (DDB), used in the rest of the concession tables.

EMITTED BENEFITS:

Emitted benefits are credits sent to the payment system referring to continuous payment benefits which are in the active benefit roster. Positive Complements (Complementos Positivos – CP) of a benefit, e.g. those stemming from a judicial decision, reactivation or revision of a benefit, etc. also constitute emitted credits as long as they are of low unitary value. Emitted benefits do not include Alternative Benefit Payments (Pagamentos Alternativos de Benefícios – PAB), which are commanded by Social Security Offices (Agências da Previdência Social – APS) and paid directly at Banco do Brasil. The amount of emitted credits can be larger than the quantity of active benefits because one benefit may generate more than one credit within a single month. Information on quantity includes alimonies and survivor pension unfolding. Value information refers to the net value, obtained by the difference between the gross value (benefit value plus complements, family benefit, etc.) and the value of reductions (income tax, alimonies, etc.). Tables 12, 13 and 14, unlike all other tables, consider the value of the benefit plus complements and do not incorporate non permanent credits nor reductions. Information usually refers to the calendar month of the benefit, not the payment month. The 13th yearly payment are part of the calendar months of August and November, paid in the months of September and December respectively.

REQUIREMENTS, DENIALS AND BENEFITS UNDER ANALYSIS:

REQUIRED: Quantity of processes requiring a benefit (receiving a Benefit Number– NB) and whose Requirement Entrance (Data de Entrada do Requerimento – DER) is the month of reference.

DENIED: Refers to benefit requirements which were analyzed and not conceded because they did not fulfill all legal criteria needed for concession.

UNDER ANALYSIS: Correspond to the benefit requirement stock which has still not been dispatched by the INSS, that means, neither conceded nor refused or concluded until the month of reference, or which need the requiring person to supply additional information or documents. Comprehend the benefit requirements which have a DER but no Benefit Dispatch Data (Data de Despacho do Benefício – DDB).

Information on requirements, denials and benefits under analysis include benefits of the General Regime, labour accident, social assistance and treasury-owed (EPU) benefits. Data related to Social Assistance Pensions – Invalidity and Old Age are included, respectively, under Benefits by Labour Incapability and Other Benefits.

SUSPENDED BENEFITS:

Correspond to the benefits of the roster which, temporarily, do not generate credit for payment, although their value is updated each month and they can be reactivated any time by the INSS. They include alimonies and split survivor benefits.

CEASED BENEFITS:

Correspond to continuous benefits which do not generate credits for several possible reasons, like death, medical decision, transformation into another benefit, legal age limit surpassed, etc. in accordance to legislation. Since the communication of the event generating the cessation of a benefit may occur, in some cases, with delay, those information are subject to ulterior correction. They include alimonies and split survivor benefits.

AVERAGE CONCESSION TIME:

Corresponds to the average number of days used to conclude a concession process. The time is measured between the Requirement Entrance Date (Data de Entrada do Requerimento – DER) or Date of Document Regularization (Data de Regularização da Documentação – DRD) if there had been some information to be provided by the insured and the Date of Benefit Analysis (Data de Despacho do Benefício – DDB). Encompasses all benefits under normal analysis process, except those in phases 3 (administrative appeal) and 4 (at court).

REVENUE

Comprehends the activities related to the collecting of social security revenue, patrimonial revenue and other values due to Social Security as foreseen in legislation. Social Security contributions are: a) those due by companies and similar, incident on the remuneration paid, due or credited to the insured at their service and those on gross revenue and net profit; b) those due by domestic employers; c) those due by the insured (employee, including domestic ones, daily workers, self employed, special rural insured and optative insured) and, d) those incident on lotteries.

Contributions of companies on gross revenue, total turn-over and net profit, except those substituting employer contributions which in the normal case would have been on the payroll, and those referring to lotteries, are collected by the Federal Revenue Secretary (Secretaria da Receita Federal do Brasil) and are not included in the tables of this bulletin. Contributions referring to the remuneration of those insured serving a company, the substitutive contributions incident on turn-over, gross revenue and net profit (sport associations with professional soccer team, farmers) as well as patrimonial revenue encompassing income generated by negotiation or location of INSS real estate, are administered by the INSS.

TOTAL REVENUE:

Value of all income included in the Social Security Revenue Form (Guia da Previdência Social – GPS). Encompasses social security contributions (from companies and similar as well as contributors in general), debt total and programmed payments (administrative and judicial phases), patrimonial income, benefit devolution, labour court decisions and others. Includes contributions related to other entities (Salário-Educação, INCRA, SENAI, SESC, etc.) and all legal additional (inflation adjustment, interest and fines), that means it corresponds to position # 11 of the GPS Form. Data are registered by place of payment and the reference month is the calendar month the form was processed.

REVENUE FROM COMPANIES AND SIMILAR:

Value of payments stemming from social security contributions from companies and similar entities. Covers those parts due by companies and the insured (on the payroll), to the labour accident insurance, the first commercialization of rural production, to gross revenue of sport events. Also includes contributions referring to other entities (Salário-Educação, INCRA, SENAI, SESC, etc.) and the legal additional (inflation adjustment, interest and fine), that means it corresponds to position # 11 of the GPS Form. Data are registered by place of payment and the reference month is the calendar month the form was processed. Value of companies and similar according to States in table 20 differs from table 22 because in the first data is shown by place of payment and in the second by company location. The sum also differs between both tables because the first considers all GPS Forms and the second excludes those GPS Forms with totalization error (the sum of the parts differs from the informed total).

CASH FLOW:

Corresponds to the financial movimentation of Social Security, with daily monitoring of inflows (revenues) and outflows (payments) of financial resources in the INSS accountability.

OTHER SOCIAL SECURITY INFORMATION

MINIMUM BENEFIT GUARANTEE: Is the minimum value established by Constitution, , Art. 201, § 2º, which reads as follows: “No income substituting benefit should be lower than the monthly value of the official minimum wage.”
